

INVITATION - Soil Health Field Day

You are invited to a Soil Health Field Day

“Tackling soil acidification and other problems”

Macalister Demonstation Farm

285 Boggy Creek Rd, Riverslea via Maffra

Tuesday 2 February 2010

10.00am to 2.30pm (lunch provided)

As well as looking at soil acidity, its impacts on production, and the options for reversing soil acidification, the project will explore several other issues related to soil health in Gippsland. These include the functions of soil biology and the impacts of different land management practices.

Guest Speakers

Graeme Sait, Nutri-Tech Solutions (NTS)

Recognised world leader in sustainable agriculture.

“Healthy Soils, Sustainable Farms”

Dr. Damian Bougoure, DPI Healthy Soils Program

“Soil biology and the impact of different land management practices”

Doug Crawford, DPI Healthy Soils Program

“Soil acidity and impact on pasture production”

RSVP

Jenny O’Sullivan ph. 5663 2386 or 0427 086 087 by 1 February 2010 or Neil Baker ph. 5141 1712 or 0400 806 246 by Friday 29 January 2010.

Numbers limited so booking is essential.

This day is the first of a series of eight days held across West Gippsland and is brought to you by the Healthy Soils, Sustainable Farms – Tackling Acidification in West Gippsland Project funded by Caring for our Country.
